

BCS STREAMER

OCS-8080

The BCS Streamer

This streamer can be applied as an add-on option to all VH-series camera sets. Plug and play when positioning in open sight within the cabin, connecting the monitor Video Out and the power supply. The device is designed to enhance your crane camera system with local encoding, remote access online and recording of the video footage for playback and analysis purposes.

Key Features:

- Remote access anywhere in the world
- Live streaming from mobile devices (smartphone, tablet, computer)
- Multiple accounts possible
- Approx. 1,5 weeks of recording footage stored locally
- Playback is available at any time
- Own SIM card subscription
- Free app
- Compatible with any BCS system

The BCS Streamer is used as add-on to the existing VH-series camera systems. The streamer enables remote access of the crane camera's video stream from a laptop/PC or other mobile device.

Connect the Streamer to the BNC output of the monitor.
